The works shown herein date back to before I started my business Purplechilli Design in 2015.
All these projects were my ideas, concepts, designs, photo retouching,
image manipulation and completion of pre-press artwork production ready for print.

Constructing the future

I am absolutely thrilled to have been appointed Chief Executive of such an exciting initiative. Mahdlo will be a exceptional facility creating opportunities for young people from across Oldham to come together to meet friends, have new experiences, learn new skills and access support to reach their potential. We are already off to a great start; young people have been dedicating their time and effort in helping to design and develop Mahdlo, our local partners are all working to help make it a success and the support from local Oldham people, in particular our Founder Patrons, has been just inspirational.

With this level of commitment I know Mahdlo will be a huge success and something everyone in Oldham can really be proud of.

Helen Taylor - Our new Chief Executive of Mahdlo

Team Building

As the opening of Mahdlo gets ever closer we are pleased to introduce the Mahdlo team we have recruited so far. Helen Taylor, Chief Executive along with the Young People's Development Group carefully selected the team that will lead Mahdlo to opening in March 2012. The new team bring with them a whole host of expertise and skills and include local people who have worked in and around Oldham for a number of years. We will be rapidly expanding the team as we start the next wave of recruitment in January ready for opening in March: it will be a really exciting time for Mahdlo.

Pictured L-R are:- Vicky Richardson (Volunteer & Training Coordinator), Claire Crossfield (Development Manager), Rachelann Brooks (Senior Club), Mita Shah (Administration Manager), Ste Hardy (Senior Club), Marya Asfar (Inclusion Worker), Helen Taylor (Chief Executive), Lucy Kershaw (Junior Club), Laura Windsor-Welsh (Youth Zone Manager).

Innovative Technology design & manufacture 'cutting edge' cash handling equipment for the International Gaming, Amusement, Vending, Retail & Kiosk Industries.

With over 3 million units in the field and a core product range consisting of banknote validators, recyclers, ticket printers and multi coin hoppers Innovative Technology is proud to offer customer solutions that reduce operational costs and maximise cash efficiency.

Established over 22 years ago our 'state of the art' product range makes us one of the market leaders in our field. In 2014 Innovative Technology was named the 13th fastest growing private company in Britain and received the Queen's Award for Enterprise: International Trade.

The NV200 has a simple tag line, 'High Volume-High Security' and when the customer needs demand a product offering exceptional note handling, the highest fraud detection rates and the ability to take more cash; the NV200 banknote validator definitely fits the bill.

Boasting 99%+ field proven acceptance and rejecting all known frauds the NV200 is equipped with 4 way barcode ticket reading a lockable, removable 1000 note cashbox and rapid, free on-line update and data retrieval. An add on module for the NV200, the SMART Ticket is a unique banknote validator and ticket printer unit that eliminates the need for a separate printer. With top or rear mounting and fan fold or continuous roll media, the SMART Ticket is suitable for multiple applications.
